

11/23/12 AM 12:45-13h

Boss got on hoist, I asked where 2 & he threw up his hands & I knew that meant he wasn't & sure. He roared with me may 5-10 min? Finally when we got back 2 the ground, my lunch relief person was there, so I got off 2 go to lunch. At this time boss, said he need 2 c me after I had lunch. After my lunch, I went 2 his office. There were other there so we walked up 2 parking ramp. He began 2 talk me that there was a difference in the way I operate the hoist & the way Johnny operates the hoist. He said that there had been complaints, that Johnny was faster than I was & sometimes I creep up 2 the floors & ~~that~~ I did not have 2 (that) stop exactly

level with the floors.
 I told him, I can't
 believe that John was
 faster than I, because I
 b on it. He also stated
 that the diwall delivery
 truck had complained about
 bn there an hour & hour & half
 longer. I told him that
 they could not have been
 referring 2 me, because
 when those guys come, I
 make sure 2 get them
 N & out as quickly as
 possible. I also informed
 him that John is the
 guys buddy & naturally
~~that~~ they would want
 him instead of me. I told
 him John ~~smokes~~ smokes, &
 he allows that guys 2
 smoke on the house. I
 told him 2 look @ the
 non-smoking sign, which
 someone had may N 2 a

SMOKING Sign. I informed him that yes, I am the bad one because, I enforce the rules. ~~It was not~~ It is not my rule for the non-smoking. He ~~informed~~ informed me that I have 2 keep the hoist moving & I informed him that I always do. He replied that ~~him~~ he had 2 investigate the complaint.

1/24/12

I decide 2 ask which floor we were going 2 & at the same time informed the workers that I would b stopping @ the even floors, unless they were carrying materials or equipment. As we were going up, I worked stated, I can't believe that u r making these guys walk up 2 this floor (he was going 2 12). I told him that I know the

rates. He said the
 operator is suppose to
 stop @ all floors I turned
 around & who was talking
 2 me. I ran up the 12th
 floor & he was still running
 his mouth & I told him
 that he needed 2b Control
 about himself. He turned
 around ^{stopper} & gave me a threatening
 look. I was really
 angry. I continued my run
 once upon the ground
 again, the same operator
 got on the hoist &
 he asked me... what was
 wrong & I said 2 him
 when is it appropriate 2
 ban some 1 from ~~the~~ riding
 the hoist & he replied when
 u feel threatened. + since
 & he asked me what
 happened & I told him
 once again upon
 returning 2 the ground I

Called Mark & Explained 2 him what had happened & he said ok.

1. I'd pass them up a couple times

1/25/12 - Iron Worker (the 1 I told could not run the hoist as ~~long~~ long as I was operating it) came 2 hoist & I asked him his name, he kind of shook his head & I said I told u yester that u could not ~~run~~ ride the hoist as long as I was operating it. Later that day, may b around 1 or so, my BIA Greg West, came 2 the site & he was @ the hoist & I said 2 him what r u doing here? So he told me that the guy called the hall with a complaint. I told him my side of the story. Later that management posted

a sign of the hoist. C pic:
 → No lunch; → No break
 on an 8 hr shift.
 No 1 came 2 relieve me
 not even 4-15 min, ~~some~~
 some one could have. 4
 day they had the labors
 Steve relieve me 4-15 min
 This day Steve had time
 he was on clean up
 sweeping floors.

I ended up about 12:30
 finding a bucket, closing
 the hoist doors & peeing
 in it. I didn't have a
 sip of water until
 around 1:35-40, I
 didn't want 2 drink 2
 much, but would 2
 go 2 the bathroom.

Guys complaining about
 Out houses (metres) Nasty,
 No toilet tissue, ~~feces~~ Feces
 on toilet seats.

barrier 2 employment
4 me
